

Scoot along famous avenues, Eiffel Tower, Arc de Triumphe, Notre Dame and the rest of the beautiful city on a speedy electric scooter. Enjoy the fun, but obey the rules that restrict the little wheelies to streets and bike paths.

The trottinettes, French for scooters, aren't abandoned on sidewalks, as they are in many U.S. cities. They're in racks, serviced each night and set out fresh in the morning. For cost and other info, go to en.parisinfo.com
