

Relax, Refocus and Recharge...Four Seasons Hotel Westlake Village, California Opens - Just 45 Minutes From Los Angeles Four Seasons Hotels and Resorts announces the grand opening of its newest hotel, an oasis of well-being just outside Los Angeles, California. Featuring an expansive spa, extensive meeting space, and myriad dining options, Four Seasons Hotel Westlake Village, California is for those seeking relaxation, a gourmet dining experience, or an ideal location for a meeting or social occasion.

“At every turn, guests will find something special at Four Seasons,” says Thomas Gurtner, regional vice president and general manager, Four Seasons Hotel Westlake Village. “From the hundreds of trees and soothing waterfalls outdoors, to the carefully selected antiques and striking accents indoors, it’s an environment that encourages well-being.”

Surrounded by nine acres of landscaped gardens, Four Seasons Hotel Westlake Village offers 270 guest rooms, a comprehensive spa with 28 treatment rooms, five distinct dining options, and indoor and outdoor meeting space for nine to 900; all technically state-of-the-art, and decorated in a relaxed, sophisticated style. The ground-breaking California WellBeing Institute offers an additional opportunity to experience this property, the seventh in the Four Seasons California Collection.

Four Seasons Hotel Westlake Village offers a full range of options for travellers, including 26 suites and a 2,525-square-foot (235-sq-m) Presidential Suite. Showpiece antiques, hand-painted murals, intricate Italian marble inlays and semi-precious stone slabs accent the traditional décor. Outside, an authentic Chinese pagoda, an orchid greenhouse, a dramatic waterfall, an herb garden and boulders from the River Kwai are just a few of the special features of the grounds.

The 40,000-square-foot (3700-sq-m) Spa features four suites with fireplaces and private outdoor plunge pools and 24 additional treatment rooms for holistic therapies, massages and face and body treatments incorporating Eastern philosophies with Western sensibilities. A full fitness centre and two pools – indoors and out – along with plenty of space outdoors for meditation, jogging and exercise round out the activities available at Four Seasons Hotel Westlake Village.

The healthy approach extends into the kitchens and dining rooms as Chef Sandro Gamba creates innovative menus in a range of culinary styles – fine dining at Hampton’s for contemporary California cuisine; sushi and authentic Japanese specialties at Onyx with its salt water aquarium and onyx and carnelian accents; The Lobby Lounge for lunch gatherings, afternoon tea and evening cocktails; and The Bar for billiards and libations. A Spa Café offers refreshments to complement a day at The Spa or Fitness Centre.

Gatherings at Four Seasons Hotel Westlake Village offer endless possibilities. In addition to an 11,600-square-foot (1080-sqm) Grand Ballroom, nine smaller meeting rooms and interesting options outside, the Hotel features a state-of-the-art television studio with a 7,000-square-foot soundstage. Behind the scenes, the glass-enclosed Chef’s table is truly in the middle of the action, right in the heart of the kitchen at Hampton’s.

Just 45 minutes northwest of Los Angeles International Airport or Burbank Airport, and within 15 minutes of several private airfields, Westlake Village is conveniently located off Highway 101 near the Santa Monica Mountains in the Conejo Valley.

California WellBeing Institute

California WellBeing Institute is an innovative facility offering a comprehensive, 360-degree approach to health and wellbeing. With guidance from physicians, dieticians, life advisors and other wellbeing experts, guests will engage in healthy living programs that are customized to

their individual needs, and designed to create real and lasting life changes. The Institute, and an independent medical practice, offer nutritional education, advanced diagnostic technology, personalized care, medical screenings and fitness training—all designed to provide guests with the practical knowledge and support they'll need to enhance the quality, and longevity, of their lives.
