

I've enjoyed Vegas for many years, but won't. return. Typical phony ads feature rooms for as low as \$29.99 a night. However, you actually pay much more. With resort fees, city taxes and parking of \$20 to \$40 a day, the actual prices rise to \$100 and more a night. Any suggestions?

A: For more economical gambling, drive 30 miles south of Vegas to Laughlin, NV. No parking nor resort fees. Enjoy xlt views of the beautiful Colorado River. Also, looser slots, less crowds and much lower dining prices. And you can still get a room for \$29.99 with no add-ons.
