

Providing a taste of the Old West since 1868, Tanque Verde Ranch is the largest guest ranch resort in North America. Picturesquely located, it's near the Rincon Mountains, Saguaro National Park and Coronado National Forest. For \$250 a day you can enjoy riding and hiking in the nearby Arizona desert, as well as ranch dining, live entertainment, sunning and swimming.

Tucson temperatures in February average 70° daytime and 45° nights. In March, they warm to springtime 75° and 48°. Summer is busy family season, so seniors can avoid sharing the ranch with families and kids by booking winter visits. www.tanqueverderanch.com
