

Are you old enough to remember Jeeves, the super-competent, snooty butler of P.G. Wodehouse stories and movies? A new service is available for travelers at SFO, and for a fee, an all-knowing Jeeves-like butler can help them with all requirements related to flight schedules and other needs.

Called Airport Butler, the services include personal security, fast check-in, airport escort and ground transportation. They can also be helpful to passengers in wheelchairs and with other physical challenges. www.airportbutler.com
