

Gambling, booze, buffets. Sin City's aim, in addition to relieving you of all your money, seems to be to help shorten your life. No sleep for hours in smoke-choked casinos, unlimited booze and stuffing your gut at lard-loaded buffets. All guaranteed to kill you before surviving those three score years and ten.

Now, Sin City visitors who wish to spend a smoky shortened life, can go downtown to Fremont Street and visit Cannabition. Marijuana has been legal in Nevada since 2017, so museum visitors can indulge in all kinds of cannabis history, products and paraphernalia. For museum schedules, fees and other info, go to cannabition.com
