

A great all-season hotel, the Banff Rocky Mountain Resort is in a beautiful setting in the heart of Canada's Banff National Park. It's especially beautiful in autumn, when the mountainsides all around burst with red, orange and red leaves from the surrounding forests of elm, oak, aspen and birchwoods. In addition to luxurious accommodations, gourmet restaurants, pools, spas and typical Canadian hospitality, there are numerous other great features in the Alberta hotel's vicinity. The resort offers championship golf courses in summer and autumn, and nearby mountain ski adventures in winter.
