

Before leaving home, make sure to take items that you'll need during flights, cruises and hotel stays. Don't forget electronics, clothing, toiletries, head phones, packaged food, aspirins, neck pillow, sleep mask, small plastic water bottle, cookies or other usual travel necessities. Days before you begin your journey, get all of the required items at local stores to pack with your luggage. If you need to buy any of them at airport shops, you'll pay two or three times the usual retail store price.
